DETAILED ACTION

1. Applicant's Amendment 11/17/2005 has been reviewed and placed of record in the file.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
3. This application is in condition for allowance except for the presence of claims 9-19 to an invention non-elected with traverse in Paper filed 06/01/2005. However, the traversal has not been found persuasive and the election has been treated as an election without traverse (MPEP § 818.03(a)). Accordingly, claims 9-19 have been cancelled.

Allowable Subject Matter

4. Claims 1-8 and 20-27 (to be renumbered 1-16) are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or render obvious a semiconductor device with all exclusive limitations as recited in claims 1 and 20, comprising a semiconductor substrate including first and second surfaces and an opening penetrating through the semiconductor substrate and the first and second surfaces; an insulating film formed on the second surface of the semiconductor substrate; a fuse element

formed on the insulating film at a side opposite to the semiconductor substrate; and either: the fuse element positioned at a position aligned with and electrically isolated from the opening or: the fuse element being isolated from the semiconductor substrate and a trimmable portion of the fuse element being aligned with the opening.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
